

Eliška Šafářová

I'm a Graphic designer, painter and especially human being. I consider myself hardworking but with proper coffee brainstorming breaks. I'm up to for everything, from Illustration and visual identity to web, prototyping, animations. I'm a team player since my school years, always being part of a team. I believe in the power of team. More creative people more creative ideas. I can be serious but nether making fun the whole day.
